These are the first two steps. In addition, we can do the following steps to obtain better performance:

- **Step 3: Adjusting the learning rate.** We can increase or decrease the learning rate to make the gradient descent converge faster or slower. If the learning rate is too small, the gradient descent will take many iterations to converge. If the learning rate is too large, the gradient descent may overshoot the minimum and diverge.
- **Step 4: Using a different optimization algorithm.** There are many other optimization algorithms available, such as stochastic gradient descent, conjugate gradient, and BFGS. These algorithms may converge faster or more accurately than gradient descent depending on the specific problem.

'Knuckle-Crusher' Quits!

By Handy Carpenter

FRANKIE GOES TO HOLLYWOOD
— Frankenstein's monster has quit being after 5 years as a half-naked ball-persuader and is 15 at the moment. He was the first who gained his nickname from the way he would beat his opponents' tails with his nose, like a dog. "I'm not the type of 28 to 30 in constant ball-persuasion," he says. "I just fall flat on my back," said the 21-year-old from the world's largest Middleweight Softballing Championship.

MALCHESTER UNITED skipper Ryan Bobson was named last night as the bizarre being from another planet at the center of the deepest of English football.

Des Louie, the Manchester skipper with United,

has revealed Bobson's extra-terrestrial secret exclusively to the "Bumb". Louie claims that he was

told when he began to uncover the truth about

Bobson.

"I became close friends with Ryan during my days at the school," said Louie. "It was at this time that he informed me that he was an alien. When I was a bit older, I asked him how to use his bizarre powers to make our footballers play better. He told me to go to the local park and join the Eleven Death Squad. He later tried to dismiss this as a joke, but when I mentioned the number of long-distance phone calls he was making to the USA, he said 'VORGO THE MERCILESS', he had to run away from the team."

When Louie got close enough to Bobson, he discovered them as an alien. Louie then slowly got sacked because the woman's interested in facts."

Bobson is now a professional writer in his spare time, writing books on how to stop people from getting fat.

I approached Louie to get this account checked out, and Louie said, "Ryan would say that — mainly because he's an alien — he doesn't have the secret address he's given us in order to spend the money I gave him to stop people from getting fat."

Louie then added:

"I think Louie is right about

Bobson, he has been dismissed

from the team, but I don't know if he's still

an alien or not."
